

The chart displays the frequency of orbit labels. The x-axis, 'Orbit Label', ranges from 0 to 450. The y-axis, 'Frequency', ranges from 0 to 250. The distribution is highly skewed towards zero, with a peak frequency of approximately 245 at label 0. Subsequent peaks occur at labels 90, 120, 160, 200, 240, 280, 320, 360, and 440, with frequencies generally decreasing as the label value increases beyond the initial peak.

Orbit Label	Frequency
0	245
90	35
120	10
160	15
200	12
240	18
280	18
320	25
360	28
440	40
